WE SEE FOOD DIFFERENTLY

Situated in the heart of our city, Café provides our diners with finely crafted cuisine, using the freshest ingredients hand-picked from our talented local vendors. Inspired by her immigrant grandmother's old world recipes, our chef leads our kitchen in creating savory dishes that are inspired and modern yet comforting and familiar.

The daily-changing menu is the kind of food Lauren and Will want to eat in their own home. Taking inspiration from relatives around the world, all the dishes on our menu are designed for sharing. Using incredible local produce and whole animals that are paired with fresh ingredients, each dish is so good it really speaks for itself.
